CS Project

Event Management

Done By:

- S Shrivarshni
- Sarnitha

WHAT WILL OUR PROJECT DO?

- User login – with password
- The user can book for events that they want to host
- Everything necessary for hosting an event is provided
- Add-ons available:
    - Food – Catering services
    - Decorations – specific themes
    - Invitation cards
- An estimated cost is displayed
- The user can check the status of the booked event
